DNA Kit Instructions

In the DNA kit you should find:

- Sampling kits (Hair, Blood, or Tissue)
  - All sampling kits will be marked with the Private Herd Number (PHN) that corresponds to the barcode.
  - Two Order Forms (from Zoetis or Neogen).
  - Extra sampling kits

1

Collect Samples

- Ensure that the correct sample is placed with the correct sampling kit.
- Instructions for collecting samples (Hair, Blood, Tissue) can be found on the ABBA website under the Genomics and DNA section.

2

Packaging Samples

- Ensure all samples, along with one copy of the order form are placed in package.
- The address of the Labs can be found on the order forms.
  - **ZOETIS GENETIC**
    333 Portage St.
    Kalamazoo, MI 49007

  - **GENESEEK - NEOGEN**
    4131 N. 48th St.
    Lincoln, NE 68504

3

Confirmation and Results

- Results take 4 to 6 weeks to complete.
- Once the results are available, they will be processed and a DNA report will be emailed to the member.
- If there are any discrepancies or if additional testing is required, ABBA will notify the member.
